

## Medical Information &amp; Letter of Acceptance

Name of the Patient:	Makarov Bogdan
Gender	Male
Date of Birth	27/10/2015
Country of Residence / Citizenship	Russian
Name of the Physician in Host country	Dr. Vivek Mundada, Paediatrician

The parents of master Makarov Bogdan, aged about 9 years, has approached us and sought for Elevidys gene therapy at MEDCARE WOMEN & CHILDREN Hospital.

After reviewing the genetic reports submitted by the parent, Makarov Bogdan is confirmed to have a neuromuscular condition called Duchenne muscular Dystrophy.

A mandatory lab test called anti-AAVRh74 antibody titres was ordered which was negative. This makes Makarov Bogdan clinically suitable for Elevidys (delandistrogene moxeparvovec-rokl) Gene therapy.

Any further questions may be addressed to the undersigned.

  
Dr. Vivek Mundada  
Consultant Pediatric Neurologist  
Medcare Women & Children Hospital
